#### Default styles

B

You can now view the Arize default styles in the Prescription Preferences setup screen

- Functional Orthotics
- Sports Orthotics
- Stability Orthotics
- Everyday Comfort
- Dress/Low Profile

You can modify the default styles and save them as a new style.

You cannot rename or delete an Arize default style

## How to Edit and Save an Arize default style

On the Home screen, select the Preferred Prescription link

You can either create a new style or duplicate and modify an Arize Default Style

Room	Box(b) Edit Prescription Preference
	What name would put the to give your twee prescription? Dr. Smith Functional Orthodos Diagnosis (splitonal) ® Please select v
	SHELL MODIFICATIONS

Give the style a new name

Der

Change any settings on your new default style

Click save when done

## *How to select your Prescription Preferences*

#### Step 1 – Follow your normal new patient flow

Enter the patient's information then click on Next

Scan the patient's feet then click on Next

Select the anatomical markers then click on Next

Review the scans and click Next

#### The New Orthotic Style page

When you reach the orthotics style page you will notice the design has changed. You will now see the screen on the right.
